オーストラリア滞在中に
下記の疾患に対して医療費を費やす予定か

Do you, or any other person included in this application, require assistance with mobility or care due to a medical condition?

☒ No ☐ Yes

オーストラリアで生活する際に補助が必要ですか

Visa applicants are encouraged to be immunised against infectious diseases before travelling to Australia. Visa applicants who are unable to arrange their immunisation before departure from their home country are encouraged to seek advice on arrival in Australia. The Australian state and territory health authorities assist people to obtain general medical help and advice, including immunisation. Parents are strongly encouraged to have their children immunised against hepatitis B, diphtheria, tetanus, pertussis (whooping cough), poliomyelitis, haemophilus influenzae type-b (Hib), pneumococcal and meningococcal infections, mumps, measles, rubella and varicella (chickenpox). Babies between the ages of 2 and 8 months of age (only) are also encouraged to be immunised against rotavirus.

Parents should bring any immunisation records for their children with them to Australia.

Rubella vaccinations are strongly encouraged for women of child-bearing age.
