### Start an application

To start an online application you will need to [login to your ImmiAccount](#). If you do not have an [ImmiAccount](#) you will be prompted to create one.

You must add as much information as possible before you submit your application. Applications with missing information might take longer to finalise.

When completing your online application you **must not** copy and paste bullet points, numbering, accents etc from formatted documents into the free text fields. Only use numbers 0 – 9 and letters A – Z (upper and lower case), dashes '-' and underscores '\_'.

Student visa (outside Australia)	Assessment Level 1 students outside Australia applying online for a new student visa.	<a href="#">Start application for first Student visa outside Australia</a>
